## Crawler excavators

Quiet, safe and reliable. The environmentally-friendly Komatsu crawler excavators are simple to operate and probably the most efficient around. It's no wonder they're also among the top selling hydraulic excavators in the world.

## Crawler excavators

From the popular PC210 to the mighty PC2000, all Komatsu crawler excavators share a number of features such as class-leading power output, stability, lifting capacity and operator comfort. All machines offer great fuel efficiency and performance.

## Mining excavators

Komatsu is one of the largest mining equipment manufacturers in the world and our mining shovels are engineered with the highest quality, standards, and structural integrity. Through technology and manufacturing innovation, we partner with you to create a sustainable future.

## Mining excavators

The essential minerals from your mines are used to power modern technology, facilitate community growth and move society forward. These minerals are not easy to find and are even tougher to mine. Your customers trust you to deliver these resources, and you need a provider of equipment, services and technology you can rely on to help keep your operation productive and efficient. Together, we can focus on operating safely, productively, and responsibly.

## Dump trucks

First-class comfort and safety are standard features on any Komatsu model. Our new dump trucks offer power, performance, and productivity. With all the latest technology aboard, they get the job done quickly and neatly.

## Dump trucks

Komatsu dump trucks can transport heavy loads quickly, easily and cost effectively. Available in rigid or articulated versions with state-of-the-art designs, they are built around a powerful Komatsu engine and are exceptionally strong machines. They guarantee complete driving safety, even at high speeds.

## Motor graders

Komatsu's new graders combine the popular characteristics of previous series with a EU Stage IV engine and other features that focus on high performance and fuel efficiency, operator comfort, safety and easy serviceability.

## Motor graders

Powerful, with great control and low emissions, Komatsu motor graders have a power train with a torque converter drive and automatic transmission along with selectable work modes that combine for top class performances and low operation costs. A long wheelbase and a large articulation angle make slope cutting easy and provide simple and high quality levelling.
